SECTION SIX: SPILL AND DISPOSAL INFORMATION

Steps to be taken in case material is released or spilled: CAUTION! Floors may become slippery. Wear appropriate protective equipment and NIOSH/MSHA approved respirator where mists or vapors of unknown concentrate may be generated (self-contained breathing apparatus preferred). DIKE AND CONTAIN spill with inert material (sand, earth, etc.) and transfer the liquid and solid separately to containers for recovery or disposal. Small spills (less than 1 gallon) may be diluted with water and washed down a drain or cleaned up and disposed of into a sanitary sewer system. Large spills (over 1 gallon) should be contained and collected (by absorption or vacuuming) then disposed of properly. WASTE DISPOSAL METHODS: Dispose of in compliance with all Federal, state, and local laws and regulations. Incineration is the preferred method. This product is not considered a RCRA Hazardous Waste as identified in Federal Regulations 40 CFR 261. CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burning, stay out of smoke.

SECTION SEVEN: HEALTH EFFECTS INFORMATION

Primary Routes of Entry: Eye and skin contact. HEALTH HAZARDS: Will cause eye irritation and skin irritation with excessive or prolonged exposure. If on skin: Redness, irritation, or burning sensation with prolonged exposure. If spray mist is inhaled: Lung irritation and/or burning sensation. If swallowed: Drowsiness, irregular pulse, loss of consciousness.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE: None known.

EMERGENCY AND FIRST AID PROCEDURES

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

If inhaled:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If on skin or clothing:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for further treatment advice.
